

'I have found BCPS to be a wonderful Pre-School with very dedicated and caring staff. The setting is well thought out and encourages learning through play at every opportunity. It also has a lovely outdoor area that the children have plenty of access to. There is excellent communication between staff and parents and I always love to receive the online learning updates that provide a small snippet into the Pre-School day. Both my daughters have loved attending and thrived at BCPS, growing hugely in confidence and independence. My youngest daughter has allergies and the staff have been incredibly supportive, they have ensured her environment is safe whilst also making sure she does not feel any sort of exclusion. If you are looking for a fun, safe and nurturing environment for your child then definitely give BCPS a visit.'

Debbie Keast

'We chose BCPS on the recommendation of two friends whose children had both had great experiences there. I'm so pleased we did! Our eldest went into her second year at Pre-School 3 years ago, when Lisa took over the management and we've seen such wonderful changes and updates. There is a fantastic team behind her who each add their own value to BCPS. We particularly liked that the staff react to the children's interests and help the children develop their own ideas rather than imposing teacher led topics. There's a huge range of resources and the room and outdoor area is always beautifully set up, using things the children have created to add the colour and liveliness. There are lots of separate spaces so the children always have somewhere to go to be loud or quiet, or to create or read or dig! We found that the transition to school for our eldest was easier as she'd spent two years playing near the school children due to the location of the Pre-School. When our youngest then attended Pre-School he and his sister could wave and say hello to each other. Communication with parents is done via a system called Tapestry which allows photographs to be uploaded and securely shared. The staff are excellent at logging the children's activities and it's lovely to see a picture or read an account of a little interaction or moment of triumph. The staff get to know the children really well and hold face-to-face meetings at least termly to discuss children's experiences and progress. In summary this is a wonderful place for a child to learn away from home for a few hours each week. Staff really get to know each child and help them have the best time they can whilst at Pre-School whilst also preparing them for their next step into School.'

Jo Frize

'BCPS has been a great choice for both of my children. Committed and caring, Lisa and the team create a stimulating, fun environment where the children develop in confidence and learning, preparing them for the move to infant school. The Pre-School is an asset to the local community.'
